

ADITHYAN

github.com/Adhi1755 | adithyanagamuneendran.dev | Bangalore, India

EDUCATION

B.Tech in Computer Science & Engineering (Data Science Specialisation)

Dayananda Sagar University, Bangalore | CGPA: 8.74 / 10.0 | Expected Graduation: May 2026

TECHNICAL SKILLS

Languages:	Python (Advanced), JavaScript (Intermediate), SQL
ML / AI:	PyTorch, LangChain, Google Generative AI, NetworkX
Web / APIs:	FastAPI, Next.js, React, REST APIs, WebSockets
Databases:	ChromaDB, PostgreSQL, MongoDB
DevOps:	Docker, Git, GitHub Actions

PROJECTS

EmbedMindAI · Full-stack RAG Platform

FastAPI, ChromaDB, LLaMA 3, WebSockets, Docker

- ? Built an end-to-end Retrieval-Augmented Generation platform supporting multi-format document ingestion, real-time streaming via WebSockets, and citation-aware answers.
- ? Integrated LLaMA 3 for generation with ChromaDB vector store; containerised with Docker Compose.

SkillSpark · AI Career Assessment Platform

Next.js 15, React 19, GSAP, Recharts, Gemini API

- ? 3rd place at Hackverse 2025. Built an AI-powered career assessment tool with cinematic UI animations (GSAP) and interactive analytics dashboards (Recharts).

PharmaDemandSensing · Demand Forecasting System

XGBoost, LSTM, Flask, Pandas, NumPy

- ? Trained XGBoost + LSTM ensemble on 18 months of pharmaceutical sales data; served predictions via Flask REST API with <80ms p95 latency.

GalaxyGeeks · Interactive Space Education Platform

Three.js, Zustand, Next.js, NASA Open APIs

- ? NASA Space Apps Challenge 2024 global nominee. Built a 3D interactive solar-system explorer using Three.js and Zustand state management.

ACHIEVEMENTS

- NASA Space Apps Challenge 2024 · Global Nominee
- Hackverse 2025 · 3rd Place (350+ participants)
